The International Journal for Rural Development

INDEX 2021

INDEX OF SUBJECTS AND INDEX OF AUTHORS

FOCUS

The challenge of innovation	1/2021
Biodiversity	2/2021
Food systems, nutrition and the SDGs	3/2021
Tailwind for sustainable artisanal fisheries	4/2021

SUBJECTS

	PAGE	ISSUE		PAGE	ISSUE
Agriculture & Livestock/ Agricultural policy			Biodiversity and agriculture – rivalry or a new friendship?	24	2/2021
Leapfrogging for Africa's agri-food sector	14	1/2021	"We must thoroughly change how we use our land and seas" – Interview with Maria Flachsbarth, BMZ	26	2/2021
Organic agriculture – a viable solution to achieving the SDGs	38	1/2021	Shaping the transformative change – development cooperation's role	28	2/2021
Bridging the knowledge and skills gap in dairy husbandry	42	1/2021	The Agrobiodiversity Index	31	2/2021
Biodiversity and agriculture – rivalry or a new friendship?	24	2/2021	Agrobiodiversity and integrated seed systems to improve smallholder livelihoods	32	2/2021
Agrobiodiversity and integrated seed systems to improve smallholder livelihoods	32	2/2021	Conserving biodiversity, meeting people's needs	35	2/2021
Financing agriculture in West Africa – challenges and paradigm shift	41	2/2021	Development cooperation		
Towards inclusive and sustainable contract farming	36	4/2021	You can change the game. Why development cooperation must strengthen its innovative capabilities	04	1/2021
Is conflict-hit Kashmir heading for food crisis?	38	4/2021	Towards a world without hunger: research points the way	33	1/2021
Agroecology			Bridging the knowledge and skills gap in dairy husbandry	42	1/2021
Wind of change – the growing momentum for agroecological transitions	30	3/2021	"We must thoroughly change how we use our land and seas" – Interview with Maria Flachsbarth, BMZ	26	2/2021
Unlocking the potential of agroecological approaches – the Transformative Partnership Platform on Agroecology	33	3/2021	Shaping the transformative change – development cooperation's role	28	2/2021
"Agroecology is the future" – Interview with Maria Tekülve, BMZ	34	3/2021	How science on-the-go can enhance development efforts	44	2/2021
Biodiversity/ Ecosystem services			Putting food systems analysis into practice – the example of Ethiopia's Wag Himra Zone	24	3/2021
Protecting biodiversity requires transforming human-nature relations	06	2/2021	Nutrition-sensitive agriculture and improved nutrition in mountain areas: Rural service providers as catalysts	27	3/2021
The Convention on Biological Diversity and the Aichi Targets	09	2/2021	Global fisheries – still a blind spot in international cooperation	06	4/2021
The economics of biodiversity	10	1/2021	Digitisation		
Food system transformation starts and ends with diversity	14	2/2021	Silicon Valley for Africa's agricultural start-ups	18	1/2021
Why conserving 30 per cent of the planet's land and seas is critical – and how to achieve this	16	2/2021	A reality check for digital agricultural extension tool development and use	23	1/2021
Why a 30 per cent blanket target on protected areas is not enough	17	2/2021	Using personalised digital extension services to improve agriculture performance – an example from India	26	1/2021
Connecting people and nature – UNESCO biosphere reserves in Ghana	20	2/2021	Mobile-based solutions lagging behind their possibilities	28	1/2021
Facts and figures on biodiversity and ecosystem services	23	2/2021			

SUBJECTS

	PAGE	ISSUE		PAGE	ISSUE
Employment/ Income generation			Thinking terrestrial and aquatic food systems together	12	4/2021
Business challenges for disabled poor women in rural Bangladesh	46	2/2021			
Fisheries/ Aquaculture			Forestry/ Forest conservation		
COP 26 side events stress importance of aquatic food systems	04	4/2021	Encouraging children's love of trees	36	1/2021
Global fisheries – still a blind spot in international cooperation	06	4/2021	Gender		
Small in size – big in value. Celebrating small-scale artisanal fisheries and aquaculture in 2022	10	4/2021	Business challenges for disabled poor women in rural Bangladesh	46	2/2021
Thinking terrestrial and aquatic food systems together	12	4/2021	Health		
Boosting transdisciplinary research for small-scale fisheries	14	4/2021	Engaging the community in solving the bushmeat crisis	42	3/2021
More aquaculture to feed the world? Not at the expense of African fishing communities	16	4/2021	Public-private partnerships		
Sustainable fisheries need transparency	18	4/2021	You can change the game. Why development cooperation must strengthen its innovative capabilities	04	1/2021
"We have nothing to hide, but everything to share" – Interview with Philippe Michaud, Consultant to the Ministry of Fisheries and the Blue Economy of the Seychelles	20	4/2021	Using personalised digital extension services to improve agriculture performance – an example from India	26	1/2021
Fish Forever – community-led solutions to solve coastal overfishing	22	4/2021	Research & Innovation/ Knowledge transfer		
"Certification is not an end in itself" – Interview with Joann P. Binondo, WWF Philippines	24	4/2021	You can change the game	05	1/2021
How to achieve an equitable and just "30 by 30"	25	4/2021	More, but not of the same – new funding for a new type of AR4D needed	08	1/2021
Building a better future for African coastal fishing communities	28	4/2021	Moving towards "One CGIAR". How the Consultative Group on International Agricultural Research is responding to new challenges	11	1/2021
Aquaculture feeding – problematic, but not without alternatives	31	4/2021	Leapfrogging for Africa's agri-food sector	14	1/2021
Cell-based (fish) meat – no longer a pie in the sky	35	4/2021	Silicon Valley for Africa's agricultural start-ups	18	1/2021
Food security & nutrition/ Food systems			Smallholders' adoption of innovations – an agenda for learning	20	1/2021
Food system transformation starts and ends with diversity	14	2/2021	A reality check for digital agricultural extension tool development and use	23	1/2021
Food systems – beyond the buzz	07	3/2021	Using personalised digital extension services to improve agriculture performance – an example from India	26	1/2021
Why food systems transformation is crucial for achieving the SDGs	10	3/2021	Mobile-based solutions lagging behind their possibilities	28	1/2021
"Transformation requires effective institutions" – Interview with Joachim von Braun, Chair of the Scientific Group of the UN Food Systems Summit	13	3/2021	Returnee migrants as agricultural innovators in Nepal	30	1/2021
"We cannot leave the battleground to corporations and market interests" – Interview with Shalmali Guttal, Executive Director of Focus on the Global South	16	3/2021	Towards a world without hunger: research points the way	33	1/2021
Fair, healthy, global – helping to reshape our food system	19	3/2021	Closing the adoption gap. Implementation research can help bring innovations from the laboratory to the field	34	1/2021
The future of Rösti and Fondue – Switzerland's contribution to the food systems dialogues	21	3/2021	Bridging the knowledge and skills gap in dairy husbandry	42	1/2021
Putting food systems analysis into practice – the example of Ethiopia's Wag Himra Zone	24	3/2021	How science on-the-go can enhance development efforts	44	2/2021
Nutrition-sensitive agriculture and improved nutrition in mountain areas: Rural service providers as catalysts	27	3/2021	Leveraging the power of network effects	40	3/2021
Wind of change – the growing momentum for agroecological transitions	30	3/2021	Boosting transdisciplinary research for small-scale fisheries	14	4/2021
"Agroecology is the future" – Interview with Maria Tekülve, BMZ	34	3/2021	Rural-urban linkages		
Engaging the community in solving the bushmeat crisis	42	3/2021	Rethinking the rural-urban relationship based on nutrient recycling	37	3/2021
COP 26 side events stress importance of aquatic food systems	04	4/2021	Sustainable development		
Small in size – big in value. Celebrating small-scale artisanal fisheries and aquaculture in 2022	10	4/2021	Rethinking the rural-urban relationship based on nutrient recycling	37	3/2021
			Organic agriculture – a viable solution to achieving the SDGs	38	1/2021
			European Development Days 2021: "The Green Deal for a Sustainable Future"	04	2/2021

SUBJECTS

	PAGE	ISSUE		PAGE	ISSUE
Protecting biodiversity requires transforming human-nature relations	06	2/2021	Fair, healthy, global – helping to reshape our food system	19	3/2021
The moment is now. A convergence of pressing need and promising opportunity for advancing sustainable development	04	3/2021	The future of Rösti and Fondue – Switzerland's contribution to the food systems dialogues	21	3/2021
Why food systems transformation is crucial for achieving the SDGs	10	3/2021	How to achieve an equitable and just “30 by 30”	25	4/2021
“Transformation requires effective institutions”. Interview with Joachim von Braun, Chair of the Scientific Group of the UN Food Systems Summit	13	3/2021	Tourism		
“We cannot leave the battleground to corporations and market interests” – Interview with Shalmali Guttal, Executive Director of Focus on the Global South	16	3/2021	Conserving biodiversity, meeting people's needs	35	2/2021
			Youth		
			Silicon Valley for Africa's agricultural start-ups	18	1/2021
			Encouraging children's love of trees	36	1/2021
